# The Details

Detail shots are my favorite and are such a beautiful reflection of the bride, groom, and the day itself. In this list, you will find several ideas for what to include in your detail shots. Invitations are highly suggested!

If everything that you would like to include in your detail shots could be together in one place, ready for me to take and shoot, that would be fantastic and save precious time. This is a great task for bridesmaids.

This list is not all-inclusive. If there is something from your day that is special and/or unique and not listed here, please include it!

On the same token, every wedding may not have all of these details. Whatever you are able and comfortable to share with me, I promise I will guard with my life and create beautiful images!

## TIPS

1. For the invitation suite, please include TWO copies if any of the pieces are front-and-back.
2. Please address the envelope to the couple and include any stamps, wax seals, ribbons, or other materials sent.
3. You can purchase keepsake envelopes from Etsy or make your own just for pictures!
4. You can also purchase vow books. I recommend hand-written vows or letters.
5. If you do not have a ring box, there are several options on Amazon.
6. Ask your florist to save any scrap or loose pieces for the detail shots!
